PORTABLE WITH PUNCH.

CONDITIONING PUMPS

The Vaughan Conditioning Pump is a beast just below the surface. We mounted our submersible Chopper Pump to a portable stand and super-charged it with a high-velocity mixing nozzle. The result is a powerful pump that can be used in multiple applications at a single site.

Choose the unmatched reliability of Vaughan.

DON'T WASTE ORGANIC WASTE.

Chopper **Rotamix**

As energy costs rise and landfill restrictions increase, high strength organic wastes including Milk, Oils and Greases (MOG) are being converted into valuable energy. Resource recovery of high strength wastes demands high strength equipment that is built for the challenge. The Vaughan Rotamix and Chopper Pump systems are easy to service, energy efficient, and come in multiple configurations to optimize any biogas application.

Choose the unmatched reliability of Vaughan for your waste to energy systems.
